German cars are different – different style, different performance, different design. Many automotive shops shy away from these brands.

We love them.

We know it can be difficult to trust someone else to take care of your sophisticated German automobile. This is why we have assembled a team of specialists with many years of factory training to cater to your automobile's servicing and repair needs.

## *German Automotive Repair*

Call us at 403-276-7676 with your questions. We care – a lot – about repairing your vehicle properly, on time, and on budget.

Please present this card for \$25 towards your next visit.
